

# Enforcement Process

## Step 1: Monitoring

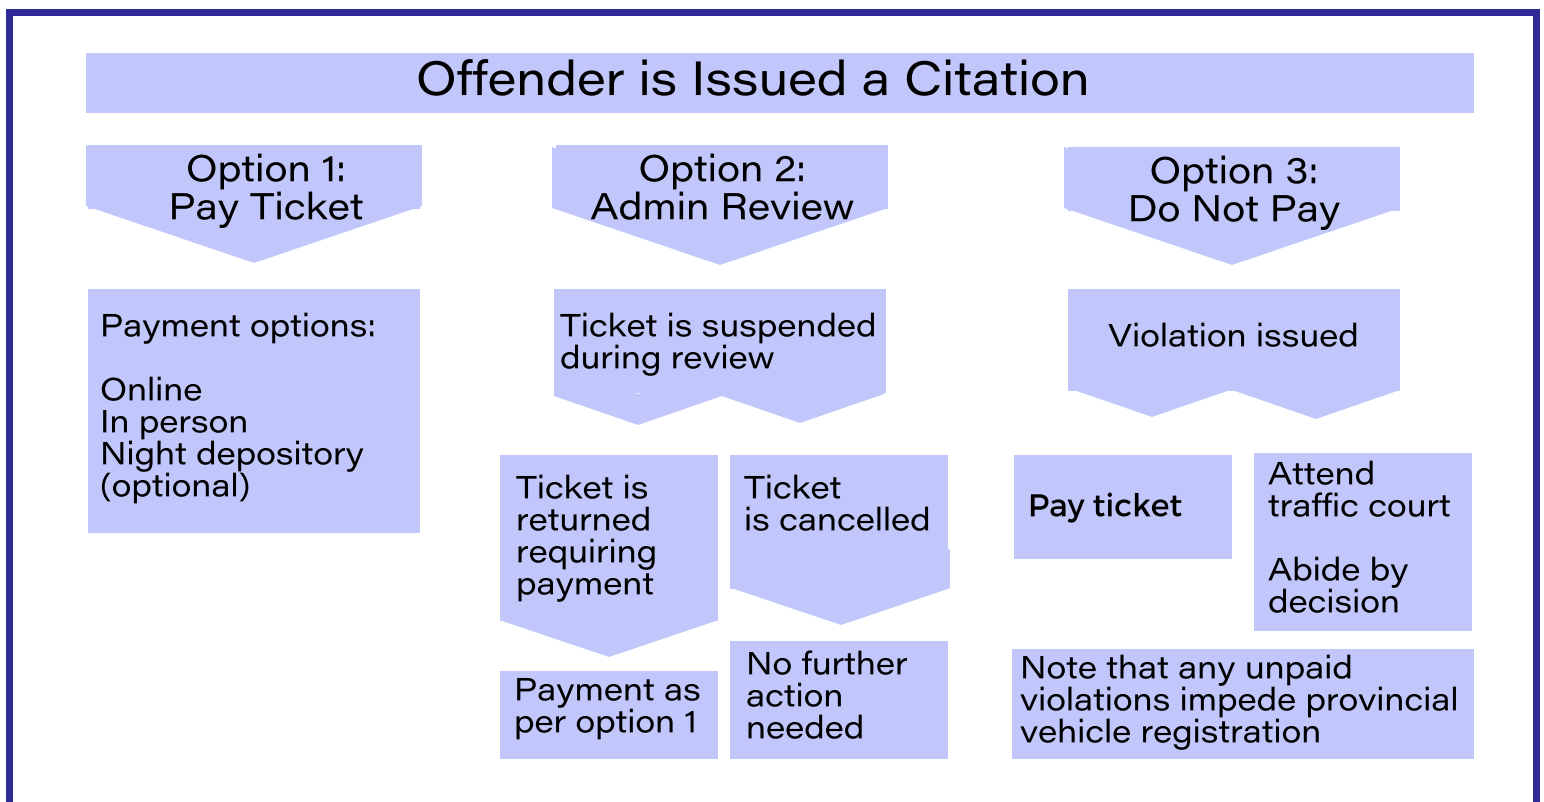

By LPR equipped vehicle, by fixed cameras, or by a tablet with optical character recognition for foot patrol officers.

## Step 2: Determine Compliance

Parked vehicles are either compliant (have paid) or non-compliant (have not paid). If vehicles are non-compliant, they move to step 3.

## Step 3: Citations

Anyone found to be non-compliant will receive a citation. These can be issued in real time, or tickets mailed after the fact using post-processing technology. The diagram below shows potential outcomes.

## Step 4: Further Action

Repeat offenders, stolen vehicles, or other exceptions may exist. Identifying these unique situations is important, and can be dealt with on an individual basis. Other agencies or departments can be notified as appropriate.
